ELBRIDGE W. FOX,		
JOHN U. SIMES,		

ANNUAL REPORT

OF THE

SCHOOL BOARD OF MILTON,

FOR THE

Year Ending March 1st,

1901.

Remarks.

There have been more than the usual number of changes in the teaching force during the year. These changes for the most part have been occasioned by necessity. In the Milton District, Miss Edith Lucas, after five years of continuous and excellent service, resigned to accept a more lucrative position in Massachusetts. Miss Lillian Hanscam, who had taught the grammar school three years died during the summer vacation. She had given her life with a rare fidelity to her work, and she will long continue to exert a wholesome influence in the lives of her pupils, who could not fail to be deeply impressed by her example of refined christian character. At Nute Ridge, Miss Huckins one of our best approved teachers was not able to teach the spring and fall terms on account of ill health. She returned to her work for the winter term, but is not expected to return next year. Her work in the past merits the high appreciation that has been accorded to her in the neighborhood and by all who have seen how much can be accomplished by an energetic, faithful teacher in a school with a small number of pupils. The "Hare Road" school has had three different teachers, a change for every term.

At Milton Mills, Mr. Legg completed his work at the close of the spring term to pursue studies for a future profession. He has had a worthy successor in the school in Mr. McCue. Miss Anderson teacher of the Primary and Intermediate school was also on account of ill health unable to teach the last term.

In the change made necessary by the death of Miss Hanscam, it was thought best to try the experiment of a man teacher, who should not only teach the Grammar school but have some general oversight of the one hundred and more pupils who attend the four

schools in this building. Mr. Bentley a graduate of Bridgewater Normal School was secured for this position and has in every respect justified the experiment. The oversight over the pupils about the building during recesses has been kindly, and promotive of good order and fair treatment of pupils, the one of the other. And the stimulus of a man devoted to his profession has had an excellent effect in the school-room work, especially with the boys, and if we mistake not, the girls are as much pleased as the boys.

While these changes in teachers are regarded by your school board as necessarily accompanied with some loss, yet we believe the present teaching force is the equal in efficiency of any that we have had in recent years, and that the school work of the past year will compare favorably in orderly behavior, and in attention and progress in studies with any year in the history of our common schools. In at least one of the districts on the west side of the town there has been a considerably increased number of pupils in attendance and so no agitation has been made toward consolidation of the schools which at some times has seemed to be a probable necessity.

Except in one or two schools there have been thirty weeks in the school year. In these one or two exceptions, the closing the school was occasioned by the dropping off in attendance making the numbers too small to afford the continuance longer. If some satisfactory arrangement could be made by which the small schools in the out districts could be closed at about twenty-eight weeks schooling and a transfer of the older pupils to some three centers for the remaining weeks, two weeks could be added to the length of these central schools at a time most favorable for study, and the whole expense would not be increased, while great benefit would be to those especially who are seeking entrance into the high school. During the past year eighteen different pupils have entered the Nute High School from the town schools. This is double the number that have entered in any recent year, and is creditable to the schools, and pupils and parents.

The High School has continued with the same corps of teachers as in recent years who are gaining for it a reputation second to none of its class in the state. It is felt that every effort should be made to fit every boy and girl at a suitable age for entrance to this school that they may receive the advantages of this splendid benefaction. The policy of the board with regard to the important matter of text books has been to make few changes until the old books are worn out and when new books are demanded the best are sought for. It is believed in the essential studies our town is equipped with as good series of text books as any town in this vicinity.

Respectfully submitted,

MYRON P. DICKEY,
FORREST L. MARSH,
ANNIE E COOK.
